

**Checkerplate Promenade Tiles**

The "Castile" Checkerplate finish has been available for some years now and is chosen throughout the flat roofing industry when a durable, practical and high slip resistance surface is required.

Our unique edge detail avoids the unsightly steps between tiles when laying on slightly uneven surfaces.

Checkerplate Slip Resistance: 52 Wet (Low Potential For Slip) tested in accordance with BSEN 1339 Pendulum Test.

Please **Contact Us** for more details.
