

Porcelain Stoneware

Castle Porcelain Stoneware are single piece porcelain slabs 600 x 600 mm wide x 20 mm thick.

Our Porcelain Stoneware is one of the most luxurious products in our range as they are manufactured using the finest materials, techniques and machinery. Castle Porcelain Slabs are extremely hard wearing, dimensionally accurate, strong, light weight and aesthetically pleasing.

We also offer a range of edges, corners and trims to accommodate most applications.

Castle Porcelain Stoneware offers three installation methods depending on user requirements: Raised installation using our range of support pads can be used outdoors on balconies, flat roofs and any other area that requires a gap under the walking surface.

Installation loose laid onto gravel is also possible on decorative and low trafficked areas. This method offers a quick installation where the slabs can be removed at any time.

High trafficked and areas where vehicles may be present will require installation using an external grade flexible fully bedded adhesive. When using this method the gaps can also be grouted if required. The fully bedded adhesive method is not suitable for flat roofs or balconies.
