

Striated - Promenade Tiles

Our Striated finish is a firm favourite with many of our customers and is often described as having a "bark" like finish.

It is the combination of attractive texture, high slip resistance, durability and high strength synonymous with "Castile" Striated tiles that makes them highly popular with our customers.

The extensive range of colours available gives excellent scope to find just the right colour for your application and the unique edge detail avoids the unsightly steps between tiles when laying on a slightly uneven substrate.

Striated Slip Resistance: 58 Wet (Low Potential For Slip) tested in accordance with BS EN 1339 Pendulum Test.

Please **Contact Us** for details of your local outlet. We have over 550 across the UK.
