

# Euroshield P5 & P10

Euroshield is a liquid applied moisture tolerant system which has been specifically designed to provide an excellent price to performance ratio and is available with a 5 or 10 year product guarantee as standard

## Benefits:

- Simple and rapid application without requirement for a reinforcing glass mat
- Air cured so the system can be applied at low temperatures
- Instantly shower proof
- Cold applied, no hot works insurance

required

- No further solar reflective treatment required
- Units can be opened and resealed with no surface skin inside the tin
- Fire tested to B-roof(t4)

## Applications:

- Mastic asphalt
- Bituminous sanded felt
- Bituminous mineral felt
- Concrete substrates
- Timber deck
