

Bitumen Membranes

High performance SBS, APP or APAO membranes that are reliable, durable, and long lasting, cost-effective waterproofing systems. Using state-of-the-art technology, the membranes are environmentally friendly, easy to use and easy to install, can be self-adhesive or fully bonded with certification including BBA, Broof T4, Olivine Carbon Capture mineral and all systems carry extended warranties

Once installed, torch-on felt roofing forms resilient, water-tight seal with the roof on which it is installed, that ensures that the roof remains waterproof even in adverse weather conditions, such as strong wind and can be simply repaired where necessary
